NO MAHOGANY ROW

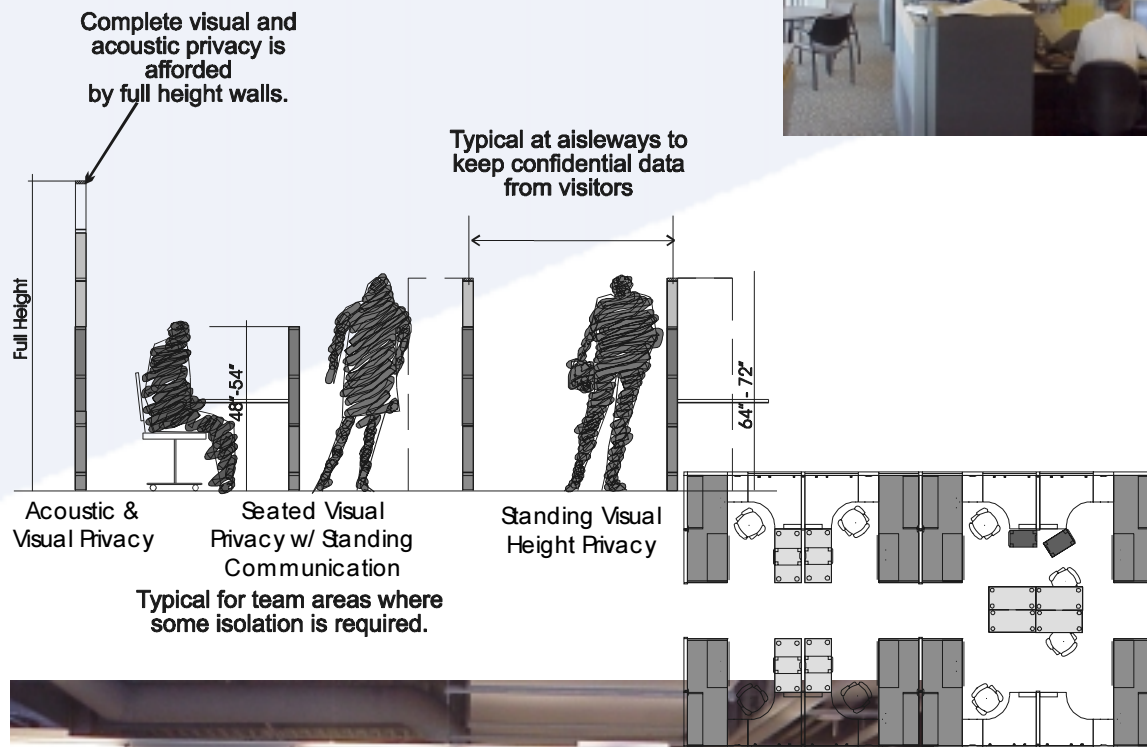

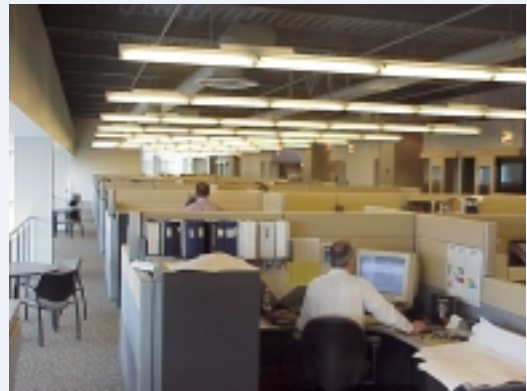

PROXIMITY IS OK  
BUT NOT NECESSARY  
Inter-group proximity of  
executives & managers is not  
special. All levels of staff  
should interact -- especially  
at team & support areas.

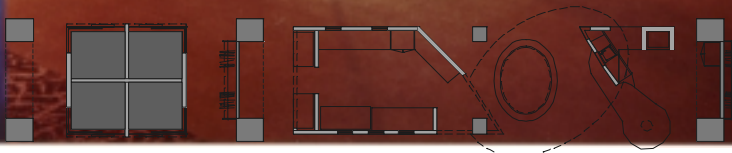

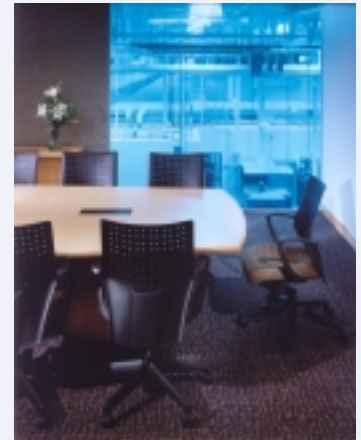

Every person got the space &  
tools they needed. Special  
treatment and finishes were  
given to shared support and  
meeting areas.

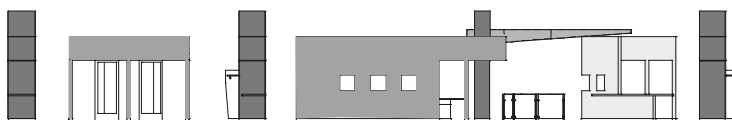

Open communication, knowledge-sharing and non-hierarchical settings were essential tenants of interior planning.
